### Dr. Gray Brechin—Guest Speaker

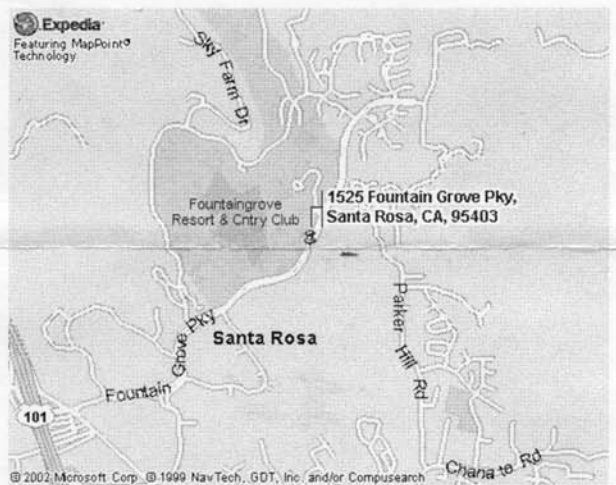

*Geographer, Environmental Historian, Author*

The Sonoma County Historical Society would like to welcome this year's guest speaker Dr. Gray Brechin. His newest venture, *Mapping the Invisible Landscape: The New Deal Legacy Project* is a growing collaborative effort sponsored by the California Historical Society to identify and map those public works within California and to honor those who built them. Project founder Gray Brechin will explain what he likens to an archaeological dig and invite the participation of those who know what "alphabet soup" agencies such as the CCC, WPA, and PWA did in Sonoma County. If you or someone in your family worked for the New Deal, you are invited to tell your stories.
